EDUCATION

Bachelor's in Software Engineering

King Fahd University of Petroleum and Minerals

2020 - 2026

EXPERIENCE

UI/UX Designer & Web Engineer - WASL

Jan 2025 - Dec 2025

Contributed as the UI/UX Designer for WSL, creating user-focused interfaces, improving usability, developing brand assets, and supporting front-end implementation.

Web Engineering Internship - Muntaj

Jun 2025 - Aug 2025

Worked as a Front-End Web Engineer on the Baseer AI vision platform, integrating data visualizations, improving user flows, and contributing to development of Muntaj's website using Eleventy and Nunjucks.

Associate Digital Marketing Analyst - Etamid

Jan 2023 - Nov 2023

Handled research, website development, and digital advertising while using GA4 insights and clear client communication to drive strong, goal-aligned results.

Projects

LLM-Powered Phishing Simulation Tool

A POC demonstrating how LLMs can augment phishing-simulation tools by generating more convincing emails through guided prompting, helping them evade signature-based detection.
